Background

The Vision: “Enjoying Software”

Edhouse was founded by two developers in 2006 with the vision to enjoy software development

- Work with inspiring people
- Give and gain recognition
- Make remarkable software products
- Work – life balance

The Mission: Be Special for the Customer

- Identify with the product
- Gain the field knowledge and leverage it in long term
- Develop the solution and integrate it

These goals lead to **motivation, engagement and responsibility** – the key values of Edhouse service.
